

Internal Job Posting
General Labourer (Full-Time)

Hayhoe Homes is currently looking for full time **General Labourers** to complete back framing, carpentry and heavy labour duties on schedule and cost effectively. The General Labourer shall perform these duties with minimal direction or help from the Site Superintendent.

Duties:

The responsibilities of the General Labourer include, but are not limited to the following:

- Accepting and completing a wide variety of tasks, such as carpentry, heavy labour, back framing, and jobsite cleanup, efficiently and error free.
- Prioritizing workload to meet the construction completion dates for all homes.
- Completion of the back framing checklist for all assigned jobs.
- Communicate effectively when reviewing job documentation with the Site Superintendent and all those who are on the job site.
- Problem solving when issues arise and reporting any situations that cannot be resolved to the Site Supervisor.
- Assuring all tools and equipment required to complete each task are available and organized.

Qualifications:

The following qualifications are required or highly desirable:

- Two years' experience as a general construction worker.
- Ability to efficiently plan and schedule job activities and maintain adherence to the planned schedule with minimal supervision.
- Ability to read and interpret blueprints, drawings, electrical, HVAC diagrams, and other construction specifications.
- Ability to assist with the assurance of a safe work environment for all construction workers, subcontractors, and visitors at the job site.
- Ability to cost-effectively solve problems and identify tasks needing to be completed, taking the initiative to either complete the task or inform the Construction Manager pr Site Supervisor.
- Valid Ontario driver's license.
